**AN ACT
REGULATING THE REGISTRATION, LICENSURE, AND PRACTICE OF
PHYSICAL THERAPY, PROVIDING FUNDS THEREFOR AND FOR OTHER
RELATED PURPOSES**

EXPLANATORY NOTE

Last March 11, 2019, Republic Act No. 11241, otherwise known as "Philippine Occupational Therapy Law of 2018", was passed into law. This Act modified Republic Act No. 5680 or the Philippine Physical and Occupational Therapy Law which was passed almost 50 years ago on June 21, 1969. Unfortunately, no new law was enacted that addresses the other side of RA 5680 - the profession of physical therapy.

Physical therapy remains to be an important sector in the allied health professions. Based on the data reported by the World Confederation for Physical Therapy, there are approximately 13,000 physical therapy professionals in the Philippines¹.

However, with advancements in science and technology, there is clearly a need for an update of the law governing Physical Therapists to make the profession responsive to the changes that have occurred since the past fifty years after the enactment of RA 5680.

This bill seeks to create a separate Board of Physical Therapy which will be tasked to maintain high professional, ethical and technical standards for the practice of physical therapy. The Board will formulate the Code of Ethics and Standards of Practice for Physical Therapists. A Continuing Professional Education Program will likewise be institutionalized through this proposed measure. This bill will also push for

the integration of all physical therapists in the country through the formation of a national professional organization of physical therapists. At the same time, it also aims to improve the quality of physical therapy education in the country.

In view of this, early passage of this bill is sought.
